Ms. Vera Gold / Project Coordinator's Office / PRISM Project Facility /
Rapid, SD 848-1345-78 // Dear Ms. Gold: //

As you know, I have been unhappy for quite some time in your regard of the PRISM Project. However, until now, I have always been able to live with your meddling incompetence. // Your inept, disgraceful & insulting handling of Phase III Fund Request has exceeded the generous boundaries of my patience. This was more than just another in a long series of Vera Gold fiascos; this episode has seriously undermined the morale of my team & endangered the Project's long-range chances for /

Politically, I've always been pretty liberal. My genuine sense of - humorous sd of life was instilled in me, along w - rest of my Jewish heritage, by my grandfather -- my mother's father. // "I married - wonderful woman, Leah, a frail little thing who left me - widower after giving birth to our daughter, Esther. And lately, now that E's out ~~of~~ on his own, my work has been most of my life."

Anyway, he's one of the big div forces behind - Plan. Gives speeches abt it all - time. He introduced - bill to Congress. He's really photogenic, very popular. I've got sort of mixed feelings abt him."
